1) Turning Data into Information is called?
   a) **Process**
   b) Data
   c) Information
   d) None of above

2) What kind of data represents Sounds and Tones
   a) Video Data
   b) Image Data
   c) **Audio Data**
   d) All of above

3) The information consist of all important fact and set of information is considered to be ____ Information?
   a) **Complete**
   b) Economical
   c) Flexible
   d) Accurate

4) Input -→ _____ ----→ Output
   a) **Process**
   b) Calculate
   c) Manipulate
   d) Both a and b

   a) _____ is a set of elements that interact with each other in order to achieve the common goals.
   b) **System**
   c) Input
   d) Processing
   e) Output

5) BIS full form is
   a) Bared Information System
   b) **Business Information System**
   c) Based Information System
   d) All of above

6) _____ is the organized collection of the related information
   a) **Database**
   b) System
   c) Computer
   d) Processing

7) _____ is the internal network based on web technology that allow the people to exchange information within the organization.
   a) Internet
   b) Extranet
   c) **Intranet**
   d) WWW

8) Information should be not much complex means it must be _____ so that it may not be overloaded and critical.
   a) Long
   b) Small
   c) Short
   d) **Simple**

9) _____ type of network allows you to exchange the information outside the organization
   a) **Extranet**
   b) Intranet
   c) Both a and b
   d) None of above

10) Which of the following is type of System?
   a) Simple and Complex System
   b) Adoptive and non-adoptive System
   c) Stable and Dynamic System
   d) **All of above**

11) In _____ system the entire system is depend upon the natural resources
   a) Adoptive System
   b) Non Adoptive System
   c) **Natural System**
   d) Dynamic System

12) The system that don't interact with the environment, relatively isolated from environment is called?
   a) Open System
   b) **Close system**
   c) Both a and b
   d) None of above

13) Information used at Strategic level is?
   a) **ESS**
   b) DSS
   c) TPS
   d) All of above

14) The main role of TPS is to ____
   a) **Responsible for daily operation**
   b) Making salary slip
   c) Taking decision
   d) None of these

15) The product flow in Information system can also have returns and rejections is termed as
   a) Work flow
   b) Scenario based flow
   c) **Reverse flow**
   d) None of these.

16) What is full form of ERP?
   a) **"Enterprise Resource Planning"**
   b) "Enterprise Requirement Planning"
   c) "Enterprise Resource Place".
   d) "Enterprise Resource Project".

17) CRM is also known as
   a) **Customer Relationship Management**
   b) Customer requirement analysis Management
   c) Customer request Manage
   d) None of above.

18) Justify the statement :

"MIS provide RIGHT and FIX format of Information."

    a) **True**
    b) False
    c) Cant' say
    d) None of above.

19) _____is a detailed study of the various operations of a business activity (System).
    a) Designing
    b) Coding
    c) Testing
    d) **Analysis**

20) The transaction that does not involve the outside 3rd party is called?
    a) External Transaction
    b) **Internal Transaction**
    c) Sales Transaction
    d) None of these

21) In which Processing system the transactions are processed immediately?
    a) Batch Processing
    b) Online Processing
    c) Real-time Processing
    d) **Both b and c**

22) The data that are present in the Online Transaction Processing system always reflects?
    a) **Current status**
    b) Money
    c) Debit card
    d) All of above

23) What is TP monitor?
    a) **Transaction Processing monitor**
    b) Trade Product Monitor
    c) Trading Production Monitor
    d) All of above are true

24) Capturing the data that is necessary for the transaction is involved in?
   a) **Data Collection**
   b) Data Analysis
   c) Data mining
   d) All of above

25) Data Correction means?
   a) Analyzing the data
   b) Gathering the data
   c) **Correcting the wrong data**
   d) Both a and b

26) Which kind of report is generated on Manger's request?
   a) **Demand Report**
   b) Key indicator Report
   c) Exception Report
   d) DSS Report

27) What is the full form of EDI?
   a) Electronic Data Interexchange
   b) Electronic Data Intermediate
   c) **Electronic Data Interchange**
   d) None of above

28) To identify the particular customer's order and send it to the particular location comes under which system?
   a) **Shipment planning system**
   b) Packaging system
   c) Inventory management system
   d) All of above.

29) What ensures that one user cannot change a piece of data before another user has finished with it.
   a) Atomicity
   b) **Concurrency**
   c) Both a and b
   d) None of these

30) KWS full form is?
   a) Knowledge week system
   b) Knowledgeable workmate system
   c) **Knowledge Work System**
   d) None of above

31) _____ includes the computing elements that are entered into the system for processing.
   a) **Input**
   b) Processing
   c) Output
   d) All of above

32) Paper work related things are full filled by which system in order to achieve the goal in Information System?
   a) **OAS**
   b) MIS
   c) DSS
   d) CSS

33) Finished product can be included in which component of Information system?
   a) Input
   b) Processing
   c) **Output**
   d) All of above

34) _____ System are totally based on the theoretical structure.
   a) **Conceptual system**
   b) Practical System
   c) Probabilistic System
   d) All of above

35) The development process of MIS includes
   a) Analysis
   b) Designing
   c) Construction and Planning
   d) **All of above**

36) DSS was designed to solve the problem on ad hoc means?
   a) **When necessary or needed**
   b) On manager request
   c) Manage CRM
   d) None of above

37) Which data represents the Graphical Image and features?
    a) Alpha numeric data
    b) Simple data
    c) **Image data**
    d) All of above

38) DSS would be possibly used to study the _____ kind of the problems.
    a) **Semi Structure**
    b) Structure
    c) Both a and b
    d) None of above

39) Lower level in the Information System Pyramid is also called as?
    a) Management level
    b) Strategic level
    c) **Operational level**
    d) All of the above
